

2017 Stanton Medal awarded to Robin Wilson

Dr. Robin Wilson has, for fifty years, been an outstanding ambassador for graph theory to the general public. He has lectured widely (giving some 1500 public lectures), and extended the reach of his lectures through television, radio, and videotape. He has also published extensively (authoring or editing some 40 books) on combinatorial ideas, written in a style that is engaging and accessible. He has provided direction, encouragement, and support to colleagues and students at all levels. His superb talents at conveying the beauty of graph-theoretic ideas, and inviting his readers and listeners to join in, have enthused many students, teachers, and researchers. Professor Wilson's advocacy and outreach for combinatorics continue to yield many positive impacts that are enjoyed by researchers and non-specialists alike.
